

Deck Tile & Planter Box

The Look and Feel of Real Wood Comes at a Price

- Wood is expensive and requires on-going, costly maintenance.
- The family deck has to be stained and water-proofed with toxic chemicals.
- The wooden siding needs an expensive paint job every few years.
- Wooden fencing requires constant repair, and time-consuming paint jobs to keep up appearances.
- Real wood accents add to the cost of any home improvement or new construction.
- You have less time to enjoy your family and your home because your exterior wood always needs something.
- The planet suffers as more wood is harvested to meet the ever-growing demand for natural-looking wood.

NewTechWood uses select, recycled, high-density plastics, combined with recycled wood products, to create a composite wood substitute that drops your energy footprint to zero. NewTechWood is made from recycled materials, and it's 100% recyclable down the line.

When you want the look of real wood, but you don't want the headaches of maintaining that beautiful façade, NewTechWood solves the problem.

NewTechWood with **Naturale** lasts longer, requires less maintenance, and it puts recycled materials to good use creating the natural look of wood without all the work.

What Makes NewTechWood the Smart Green Choice?

All NewTechWood products are produced using 95% recycled materials including plastic bottles, reclaimed wood fibers, and other products that would normally end up in a landfill.

NewTechWood undertakes annual, third-party audits to assure compliance with environmental, health, and safety regulations and guidelines – a demonstration of our commitment to a greener alternative to wood building products that deplete the planet's resources.

NewTechWood shrinks your home's carbon footprint by using recycled materials constructed to be recycled again in the future.

NewTechWood conserves home energy use.

NewTechWood's UltraShield® : The Look of Wood Without the Worry

Using its patent-pending process, called **Naturale**™, **UltraShield**® delivers convenience, reliability, and a realistic texture that, not only makes your life better, all NewTechWood products combine the proven strength of high-density, recycled plastic with realistic wood fibers to deliver the look of **Naturale**™ wood; the look you demand.

UltraShield® : Ultra-Simple

UltraShield® is enclosed in an impermeable seal so your **UltraShield**® deck or home siding stands up to weather, sun, water, scuffs and scrapes. Your home looks good down the line because, with **UltraShield**®, durability is built in.

The UltraShield® Comprehensive Warranty

NewTechWood **UltraShield**® **Naturale**™ deck tiles are backed by a 10 year limited, transferable warranty. We will refund the cost or replace the decking if our product underperforms. It's that simple.

Deck Tile in Your Style

UltraShield® delivers a simple, do-it-yourself solution for unsightly spaces, like concrete balconies, or cement "decks" off the back door.

Turn these eyesores into stylish outdoor living space no matter where you live. **UltraShield®** deck tile stands up to any weather – and that's guaranteed.

Turn that concrete slab into an elegant floor wrapped in the look of exotic hardwoods that fit your style, and your "eye".

UltraShield® deck tiles are highly-stain resistant and ultra-low maintenance so you enjoy your outdoor living space more with each passing season.

Choose from the full palette of **Naturale™** colors to create the perfect look for your perfect space. Installs simply using an inter-locking TPO polymer matrix base and stainless steel screws. All you need is a screwdriver!

Completely flexible locking system that can be secured from any side. **UltraShield®** deck tiles adapt to your needs, not the other way around.

Matching fascia is available to complete your style statement.

NewTechWood's Planter Box

Made from the same, durable **UltraShield**® planks to last and last.

Easy-to-assemble. No tools. No screws or nails.

Stylishly neutral end-posts to suit any décor.

No rot, mildew, mold, no need to paint or stain with harsh chemicals. NewTechWood is easy to love.

Choose your planter box colors from teak, cedar or white to mix and match with the colors of your new outdoor living space.

A specially perforated sheet keeps soil in while allowing excess water to drain. Small space gardening just got a whole lot easier.

Ideal for flowers or vegetables. Grow fresh tomatoes on the balcony!

Color Options

TEAK

CEDAR

WHITE

NewTechWood Planter Boxes install quickly, using a proprietary clip system, allowing for controlled expansion and contraction. This eliminates warping, distortion, or other related issues for our industrial-strength planking, which helps your planter box last for years. Just install it once, and forget it.
